

## **If I Could Fly**

By Richard and Corinne Aufiero

If I could fly up in the sky  
Do you know where I would go?  
Away from the crowds, high above the clouds  
Where rainbows brightly glow.

I'd shoot for the stars and stop at Mars  
Singing songs along the way.  
I'd fly here and there without a care  
Until night turns into day.

So now you know where I would go  
Would you come along with me?  
We'd have so much fun heading towards the sun  
Because flying sets you free.
